DRAINAGE IMPROVEMENTS**

At

**FORMER MURRAY CITY SCHOOL
PROPERTY
HOCKING COUNTY, OH**

Signature: 

Date: July 14, 2026

**Request for Proposals (RFP) for
Asphalt Paving and Stormwater Drainage Improvement Activities at
14020 Locust St., Murray City, Ohio 43144**

I. PROJECT INTRODUCTION

Buckeye Hills Regional Council was awarded an Ohio Department of Development (ODOD) Building Demolition and Site Revitalization Program (BDSRP) Grant for demolition of the former Murray City school that was built in 1914 and served the community until the 1980s. T&M Associates (T&M), an environmental consulting/engineering company, was selected by Buckeye Hills Regional Council to implement the ODOD BDSRP grant.

As of today, the demolition of the former school building has been completed, the debris cleared, and the property surface rough-graded. The Village of Murray City desires to convert the property to a parking lot for the adjoining commercial businesses. Accordingly, the purpose of this RFP is to solicit bids to pave the property and immediately adjacent access Village roads (damaged during the building demolition activities) with asphalt and enhance the adjacent stormwater drainage controls to handle the increased stormwater runoff from the added impervious pavement.

II. PROPERTY DESCRIPTION

The following Property information has been obtained from the Hocking County Auditor's website and related sources:

Property Address	Parcel #	Area of Asphalt Surfacing	Surface Water Controls
14020 Locust St., Murray City Ohio, 43144	18-000055.6000	3,819 sq yds	3 Catch Basins 155 ft of 12-inch HDPE Drainpipe

III. SCOPE OF SERVICES

The requested scope of services is divided into the following tasks:

Task 1 - Asphalt Paving in Backfilled Footprint of Former School Property (approx. 800 sq yds)

The footprint of the former school property has been backfilled and rough-graded by the demolition contractor (Dilley's Excavation & Demolition LLC). The demolition

contractor is responsible for compaction, grading, and providing gravel cover for the former school footprint

Once the asphalt paving contractor is selected through this RFP, they will work in concert with the demolition contractor such that the demolition contractor can fulfill his scope obligations for finishing the site with gravel cover, which will serve as the base material for the asphalt pavement required under this RFP scope. Specifications for this task are provided in **Attachment A**.

Task 2 - Asphalt Repaving Over Areas Immediately Surrounding Former School (approx. 2,453 sq yds)

Repave over the existing asphalt in the areas immediately surrounding the former school property. This should be graded to join and match the new asphalt pavement of the former school footprint under Task 1. Specifications for this task are provided in **Attachment A**.

Task 3 - Asphalt Paving of Adjacent Access Roads (Cherry Alley and Gift Street) (approx. 566 sq yds)

Repave the access roads adjacent to the former school property as shown on the specifications provided in **Attachment A**.

Task 4 - Vegetated Buffer Strip – Concrete Stairs Removal, Grading & Painting

- Remove all existing concrete steps and walkways along Locust Street associated with the former school building.
- Regrade grass area to match existing slope, seed and fertilize per ODOT 659.
- Install new curbing and paint four handicapped stalls in the northwest section of the property as shown on the specifications provided in **Attachment A**.

Task 5 - Stormwater Control Improvements

One new catch basin is to be installed in southwest corner of the property and two existing catch basins along Locust Street are to be redone as shown on the specifications provided in **Attachment A**.

IV. MISCELLANEOUS REQUIREMENTS

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Note: Executive Order 13658 generally applies to contracts subject to the Davis-Bacon Act that were awarded on or between January 1, 2015 and January 29, 2022, and that have not been renewed or extended on or after January 30, 2022. Executive Order 13658 does not apply to contracts subject only to the Davis-Bacon Related Acts regardless of when they were awarded. If a contract is subject to Executive Order 13658, the contractor must pay all covered workers at least \$13.65 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract from May 11, 2026, through December 31, 2026. The applicable Executive Order minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under Executive Order 13658 is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey rate, a weighted union average rate, a state adopted rate, or a

supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than "SU", "UAVG", ?SA?, or ?SC? denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE: UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The "SU" identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

?SU? wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The "SA" identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007

01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the ?SA? identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

1) Has there been an initial decision in the matter? This can be:

- a) a survey underlying a wage determination
- b) an existing published wage determination
- c) an initial WHD letter setting forth a position on a wage determination matter
- d) an initial conformance (additional classification and rate) determination

On survey related matters, initial contact, including requests for summaries of surveys, should be directed to the WHD Branch of Wage Surveys. Requests can be submitted via email to davisbaconinfo@dol.gov or by mail to:

Branch of Wage Surveys
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

Regarding any other wage determination matter such as conformance decisions, requests for initial decisions should be directed to the WHD Branch of Construction Wage Determinations. Requests can be submitted via email to BCWD-Office@dol.gov or by mail to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2) If an initial decision has been issued, then any interested party (those affected by the action) that disagrees with the decision can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Requests for review and reconsideration can be submitted via email to dba.reconsideration@dol.gov or by mail to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3) If the decision of the Administrator is not favorable, an

interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210.
